### **Lewis and Clark Interpretive Exhibit on Display at Rimrock Mall**

The public is invited to visit the Bureau of Land Management's Lewis and Clark Bicentennial interpretive exhibit at Rimrock Mall on Saturday and Sunday, November 6 and 7, during the mall's regular hours.

The exhibit, "A Legacy of Land Stewardship," was displayed at the Lewis and Clark Bicentennial Circle of Cultures Signature Event in Bismarck, North Dakota, at the end of October. Several thousand people visited the exhibit, and it was especially popular with elementary school students. The exhibit has five hands-on stations which help explain the natural and cultural history of the BLM-administered public lands along the Lewis and Clark Trail.
